## AWARDS & RECOGNITION PROGRAMS 2025

### **An Important Note On Entry Deadlines**

As part of an ongoing effort to improve the quality of these industry-standard awards and recognition programs, *Global Finance* will no longer be able to guarantee entry deadline extensions. This effort is intended to give awards judging panels sufficient time to closely review all submissions and make the most accurate decisions.

Please closely review the dates on the previous page. In most cases the deadlines are similar to those in 2024. If there are any concerns about any of the deadlines, please contact your *Global Finance* sales representative or Michael Ambrosio at [mambrosio@gfmag.com](mailto:mambrosio@gfmag.com) as far in advance as possible.

### **Methodology Details**

#### **Research and Entries**

*Global Finance's* subject matter experts create a short list based on input from industry analysts, corporate executives and users of related services, in addition to conducting independent research. Potential winners are scored based on a proprietary algorithm. Final decisions are made by the Editorial Board of *Global Finance*.

Factors considered range from the quantitatively objective to the informed subjective. Among nominally objective criteria considered are such factors as growth in operations, position on league tables, profitability, geographic reach, strategic relationships, new business development and innovation in products. Subjective criteria include the opinions of analysts, ratings agencies, consultants, customers and others involved in the industry. The mix of these factors yields winners that may not be the largest, the oldest or the most diversified in a given country or sector, but rather the best – the provider with which most companies around the world are most likely to want to do business.

It is not necessary to enter in order to win in most cases, but past experience has demonstrated that submitting entries increases the chance of success. In many cases, entrants are able to present information and perspectives that may not be readily available to the editors of *Global Finance*. All submissions are strictly confidential.

Go to [GFMag.com](http://GFMag.com) for individual award entry requirements, which will be posted before the start of the review process.

#### **Best Digital Bank Awards**

Winners are chosen from entries evaluated by a world-class judging panel of IT consultants. Only banks entering the competition are considered for awards, and awards are given only in those regions and countries in which there are entries. Go to [GFMag.com](http://GFMag.com) in mid-February for World's Best Digital Banks Call For Entries.

#### **Safest Bank Rankings**

Rankings of Safest Banks are based on a composite score derived from ratings provided by Fitch Ratings, Moody's Investors Service, and Standard & Poor's.
